

Kamran Ali Abbasi

Full Stack Developer

Email | LinkedIn | GitHub | Portfolio Website

Profile

Full-Stack Web Developer (MERN) with experience building REST APIs, authentication systems, and deploying applications on Azure (including serverless), Vercel, and Railway. Developed ML-based solutions using Python, including RAG-based chatbots.

Experience

DevOps Engineer, CENTech, NESCOM

Aug 2025 – Oct 2025

Worked with Azure DevOps Services to manage development workflows.
Automated CI/CD pipelines to streamline build and deployment processes.
Utilized Python scripting for automation and task optimization.

Frontend Developer, Cofttech.ai

Jul 2025 – Sep 2025

Developed user interfaces using React.js for responsive web applications.
Focused on UI/UX design to improve user experience and engagement.
Collaborated remotely with team members to deliver frontend features.

UI Designer, 128 Technologies

Jul 2023 – Aug 2023

Designed user interfaces with a focus on usability and visual consistency.
Worked on UI/UX principles to enhance the overall product design.

Projects

Buyonix (AI Powered Smart Shopping Assistant)

FYP-Project

- Buyonix** AI-powered e-commerce platform built with React, Node.js, and MongoDB. Includes visual search, recommendation system, chatbot, real-time chat & bargaining, Stripe payments, and multi-role dashboards.

Hire Flow (AI-Recommendation Job Portal)

- Developed an **AI-powered job portal (MERN)** with resume parsing, job recommendations, and role-based dashboards, including applicant tracking and interview management.

Live Face Detection

- Built a **Real-time face verification system** using Python, Flask, React, and DeepFace with liveness detection and JWT authentication; achieved ~100ms recognition speed.

AI Study Assistant (AI-Powered Learning Platform)

- Developed an intelligent study platform (Next.js, MongoDB) featuring RAG-based document analysis, automated quiz generation, an SM-2 spaced repetition engine, and conceptual grading to optimize active learning.

CodeMentor AI (AI-Powered Code Review & Mentor Platform)

- Developed an **AI-powered code review and mentoring platform** (Next.js, Node.js, MongoDB) featuring Groq-based code analysis with scoring, a Docker-sandboxed code playground with interactive terminal, AI mentor chatbot, GitHub OAuth, and shareable review links.

Technical Skills

JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, Python, AWS (EC2, Lambda), Azure, Docker, CI/CD, Git, GitHub, C++, Java, LLMs, RAG, NLP.

Education

Bachelor of Science in Software Engineering, Air University Islamabad

2022 – 2026
